

Role: React JS Developer

Company Introduction

Over the last few years, the live entertainment industry has been adopting Shoflo's rundown and production management software into their daily workflows and lives. Over 5,000 events used the Shoflo platform in 2018 including professional sports teams (Rams, Cubs, Magic), Collegiate (Clemson, UF, Miami) and Live Event Production companies (Mary Kay, IBM, Dell).

Headquartered in Orlando FL, the Shoflo team is a product company that loves products, technology and all things software. We have awesome customers who use our software to do amazing things. The Shoflo team is made up of software developers, designers, account executives, customer success reps and more.

Job Description

We are looking for a great full-stack JavaScript developer who is proficient with React.js and Node.js. Your primary focus will be on developing user interface components and implementing them following well-known React.js workflows (such as Flux or Redux) and integrating them with our backend API as necessary. You will ensure that these components and the overall application are robust and easy to maintain. You will coordinate with the rest of the team working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and quality product is important.

Responsibilities

- Developing user-facing features using Node.js and React.js
- Identifying the root cause of defects and creating solutions
- Building reusable components and front-end libraries for future use
- Writing unit and integration tests
- Translating designs and wireframes into high quality code
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Deploying code to staging/production
- Interacting with CI pipelines and resolving issues

(continue to next page)

Skills

- Strong in JavaScript, including DOM manipulation and the JavaScript object model
- Thorough understanding of React.js and its core principles
- Experience working with Node.js
- Experience working with MongoDB
- Experience with popular React.js workflows (such as Flux or Redux)
- Familiarity with newer specifications of EcmaScript
- Experience with data structure libraries (e.g., Immutable.js)
- Ability to work collaboratively or autonomously as necessary
- Experience with RESTful APIs
- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end dev tools such as Babel, Webpack, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- Familiarity with code versioning tools
- Familiarity with AWS services such as Elastic Beanstalk or similar services such as Heroku
- Experience with React Native a plus

Benefits

- Competitive Pay
- 100% Family Health Insurance Coverage provided by Shoflo
- Life Insurance
- Flexible PTO - Available upon request w/ manager approval
- 401k
- Work Remote Wednesdays
- Office snacks and drinks provided
- Work in fast growth small team environment
